

Eligibility:

Bachelors completed/Masters or higher degree (completed/pursuing) in analytical/organic/ physical chemistry.

Course Fees:

Student: Rs.1,180 /- (GST inc)
Faculty: Rs. 2,360/- (GST inc)
Industry candidate: Rs. 5,900/- (GST inc)

Accommodation Charges (For course duration plus two days)

Student- Rs.300/-
Faculty / Professionals - Rs.500/-

Skill development course on

Mass Spectrometry for small molecules
(Special batch for women)

No. of course participants - 10

Selection: First-come first -served basis

This course covers basics and applications of mass spectrometry for small molecule analysis. In addition to theoretical aspects, hands-on training of LC-MS/MS system will include learning of instrumentation and software for control, optimization and operation of instrument, data acquisition and processing. And also routine maintenance and troubleshooting.
