

CSIR Integrative Skill Initiative

Certificate Course in Patents for Students, Researchers & Entrepreneurs (Level 1)

About the course: The recent National Intellectual Property Rights Policy by Department of Industrial Policy and Promotion, Government of India has clearly stated the importance of Intellectual Property Rights (IPR) in realizing and enabling sharing of the social and economic benefits of novel innovations with citizens of the nation. The policy strongly encourages researchers in public funded academic and R&D institutions in IPR creation by linking it with research funding & career progression. Also, the President of India has declared this decade as the Decade of Innovations. In accordance with national focus, this course provides basic understanding of patents for students and researchers to enable them to make the best use of the patenting system. They learn how to seek protection for themselves(or their organization's) inventions, secure rights in various jurisdictions and license/ commercialize patents. This course will be a 5 days training program ending with the participants receiving a Certificate of Completion.

Course Content: Introduction to intellectual property, more specifically, patents, parts of a patent document, identifying inventions, carrying out preliminary searches using free patent databases to understand patent landscape, patentability etc., integrating IP with research, drafting complete specification, filing patent applications and prosecution, protecting inventions outside India, PCT applications, foreign filings, patent enforcement, infringement, and commercialization- patent licensing. Hands on practice - patent search and drafting.

Our USP's: *Live search training, sessions mix of theory and hands on, daily assessments, option to sign up for level 2 course (domain specific)*
